

CNC WOODWORKING & WOOD TREATMENT 3 High Performing Vacuum Pump Solutions

1 The DYNASEAL SYSTEM

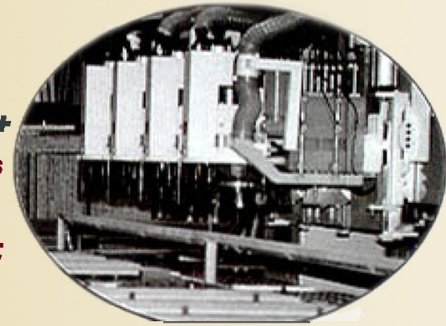

The TRAVAINI "Commitment" is to always stay ahead. Liquid Ring Innovation + Quality that is not duplicated, Travaini Pumps have come to be appreciated in Canada for 34 years and globally for over 90 years

- * Pumps quietly with ability to handle air leakages effectively, tolerating saturated air & dust that pass the filter without risk of major failure
- * *Excellent for WOOD TREATMENT applications*
- * No vanes or internal filters to change every year
- * Maximum performance for CENTRAL VACUUM for 2 of more CNC or nesting tables

- * *Low maintenance every 6-7,000 hours+*
- * *More CFM at the higher vacuum levels*
- * *Dynaseal 3-YEAR WARRANTY*
- * *Less maintenance & More Pump Longevity: Able to handle dust and internal carry-over without costly breakdown*

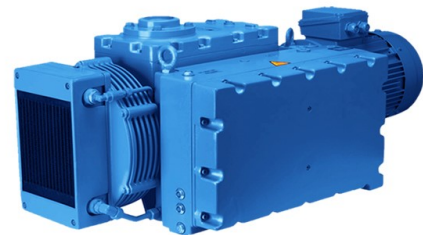

2 DRY VACUUM PUMPS KCP & DVV Series

ORION

- * **Plug and Play**
- * **2 to 75 HP Sizes**
- * **Capacity range 15 to 1500 CFM**
- * **Vacuum range 24 to 29.5" Hg.V**
- * **Variable Speed Control with PLC**
- * **Dry vacuum able to run with Continuous Operation over 29"Hg.V**
- * **DVV: most economical solution to 24"Hg.V**

3 OIL ROTARY VANE PUMPS EU & PVL Series

- * 15 sizes to satisfy almost any size router table. EU vacuum pumps are complete with an integrated closed loop recirculating system and inlet air filter;
- * **Vacuum range to 29.9" Hg.V**
- * **Capacity 5 to 750 CFM**
- * **Less Oil Changes: 500 to 2,000 hours**
- * **Enviro Friendly & Clean: Triple Filtration (Optional)**
